

SPECIAL FORCE™

MILITARY GRADE GEAR

- ★ Consistent Full Gas Charges
- ★ Dependable and Durable
- ★ Patented Safe Sealing Cap
- ★ Convenient Packaging

Leland developed the Special Force™ brand in 1976 as a result of US Military personnel referring to our gas products as 'those special force cylinders'. Since we were able to precision fill the cylinders to the correct value consistently, they gave the user the feeling of a *special force*, stronger shots and precision accuracy. The coatings and techniques we use to make cylinders is primarily a result of being a contractor to the military making specialized cylinders for the inflatable life jackets that fighter pilots wear. We have continually improved our products since 1965. Special Force™ brand is Military Grade Gear—we will not send the troops anything less.

LELAND® X-TRA POWER CO₂ CYLINDERS
Properly fits all 12 gram CO₂ powered pistols, rifles and paintball markers

SPECIAL FORCE™

MILITARY GRADE GEAR

LELAND® is a company that has specialized in gas technologies since 1965. ISO9001:2000 registered manufacturing assures you of the most reliable and effective disposable gas cylinders available. Our unique and patented safe sealing cap is the puncturable surface at the top of the cylinder. If the cylinder is subjected to a high temperature, the safe sealing cap releases the gas in a slow and controlled fashion, the ultimate in safety. We supply the military with nothing less.
